CORNERSTONE
spa services

Massage

Swedish /Deep Tissue

Reduce stress, promote relaxation, alleviate muscle pain & relieve injuries. This treatment uses corrective techniques to lengthen & relax muscles, fascia, ligaments & tendons resulting in improved circulation, increased range of motion & the elimination of metabolic waste. Massage sessions are done unclothed. Specify your modality preference with your therapist at the time of your massage.

Mastectomy or Oncology Massage

Whether cosmetic or lifesaving, breast surgery may cause scarring, swelling or edema as well as sore, achy muscles. Massage is a natural way to enhance the healing process.

Pre or Post Natal Massage

Prenatal treatments relieve many of the normal discomforts of pregnancy such as backaches, stiff neck, leg cramps & edema (swelling). This treatment reduces stress on weight bearing joints, encourages blood circulation & helps relax nervous tension which improves sleep. It can also relieve depression & anxiety caused by hormonal changes. Note: Massage should not be performed during the first trimester. Postnatal treatments relieve muscle aches & joint pain, increase circulation, improve skin firmness & alleviate fatigue & headache. Improved relaxation results in better, deeper sleep.

Reflexology

Available in 15 or 30 minute increments, this service is great for people who are short on time but in need of some effective TLC. Enjoy as a stand-alone service or add on to your massage.

Skincare

Fundamental Facial

This treatment sets the standard with customizable skincare techniques & products. Our expert will cleanse, exfoliate & hydrate to address the essential needs of your skin.

Specialty Facial

Our most active facial treatment offering an elevated experience with remarkable results. Targets specific concerns like dehydration, acne, sun damage, dark spots & aging skin. Accelerates & maximizes product benefits so you'll feel & see results immediately. Skin appears more even with enhanced elasticity, texture, tone & clarity for a refreshed, nourished & youthful look.

Microdermabrasion

Effective exfoliation treatment recommended to reduce fine lines, wrinkles, minor scars, enlarged pores, hyper pigmentation, remove sun & age spots, treat acne blemishes & fight the signs of aging.

Ultra Lift

Micro-current targeted treatment to lift & tone. This is the perfect lunchtime facial lift with no down time. Add to any facial or peel or used as a stand-alone treatment.

Refining Peel &

Advanced Therapeutic Peel

Chemical peels are a universal, anti-aging treatment that help correct multiple skin aging concerns like fine lines & wrinkles, photoaging, adult acne, thickened skin & more. Ask an esthetician which peel is right for you.

Advanced Technology Signature Facial

This 3-part comprehensive facial rejuvenation starts with a deep cleanse, extraction & powerful product penetration using ultrasonic technology. Step 2 is a complete resurfacing of the skin using diamond tip microdermabrasion & oxygen infusion for smoother, more radiant skin. Step 3 is an Ultra Lift non-invasive facelift using micro-current waves for toning, lifting, plumping & improved facial glow. This is the ultimate treatment for skin renewal. Visible results in one treatment.

Nails
